#### About the Network

Crystal Palace Club Network was established in 2013 following the ASA closure of the Beacon program in South London.

The Network is a collaboration of 11 clubs including Beckenham, Chelsea Westminster, Croydon Amphibians, Dulwich Dolphins, Leander, Wandsworth, Bromley SC, Orpington OJ's, Saxon Crown, Kingston Royals and South Croydon SC. The clubs share and manage the pool allocation previously allocated to the Beacon program at Crystal Palace and also run performance sessions on Saturday mornings for enrolled swimmers from trustee and associated clubs.

In the 2016/17 season a total of 37 CPCN performance swimming members achieved British (16 in swimmers with Individual events and a further 8 swimmers in relays) and English National (31 swimmers) qualification.

Saturday morning performance training provides an opportunity for National, Regional and County swimmers to get valuable long course experience as well as benefit from coaching with some of London's most experience and recognised coaches.

CPCN provides an opportunity for both disability and able bodied performance swimmers to train with peers of similar ability from different clubs.

To enroll swimmers must be a member of a club and meet the minimum requirement of being within 5% of County Championship qualification times (subject to coaches discretion) and turn 11 by 31<sup>st</sup> December 2017.
